In order to achieve your Power of Three bonus, each team must total 600 PV for that month.

Fill in team members names on the lines.

Write their LRP volume for that month in the circle.

Then add up the volume for each team and write the total in the TV - or "team volume" - box.

Note: Team are defined as an IPC plus their front line. All volume from that IPC's front line - both LRP and standard orders - counts toward 600 PV required.

Check off the boxes when a team reaches all the requirements: 4 LRP orders of at least 100 PV each, totaling at least 600 PV.

Green = Existing
Red = Needed
